 HORACE M. FOSS,

*Selectmen.*

We, the undersigned, auditors for the year closing February 15, 1914, have examined the books of the selectmen and find all orders drawn supported by proper vouchers.

GEORGE F. MITCHELL,  
HERBERT M. PAIGE,  
*Auditors.*

## REPORT OF LIBRARY TRUSTEES.

---

In submitting this, the seventeenth annual report, there is nothing of a remarkable character to report in the history of the library during the past year. The work has gone on in its regular and useful way.

It is a matter of satisfaction to note, however, that there has been a progressive movement in all departments and in the pleasant and hopeful relations which it has maintained with its patrons. It is also a matter of satisfaction to note the increased use of the privileges and resources of the library as an adjunct to the work of the school. Especially is this true of the high school. Of late much interest has developed in the study of New Hampshire history all along the various lines from the earliest period to the present.

Professor Watson is to be commended for his interest in directing his pupils to the study of our state history in the manner he has.

When the circulation reached 16,000 or 17,000 it was expected the maximum figures had been reached. The past year, however, has broken the record and a total of 18,186 was recorded. At no time in its history has the withdrawal of books been so large as at present. The month of January just past, 2,023 volumes were withdrawn which made the record the largest of any previous month.

These figures give substantial evidence of the interest which the general public has in the institution. They also show that no town in the state with the same population has so large a circulation. More books have been classified, catalogued and accessioned the past year than in any previous year—the total being 554 volumes.

More than five hundred were purchased from library

funds, increased by the gift of \$150 from Mrs. Georgia A. Carpenter of Manchester, who manifested her interest and good-will toward the institution in this substantial manner. Her generous act is greatly appreciated by the official management and patrons who are thus favored with a greater amount of reading matter. Quite a number of volumes were contributed by friends of the library. Some thirty volumes were kindly donated by the Concord public library. The list comprised Southey's poems, 10 volumes; History of Peru, 2 volumes; Rise of the Dutch Republic, 3 volumes; History of the Reign of Philip the Second, 3 volumes; Life of Charles the Fifth, 3 volumes; and 6 bound volumes of *Scribner's Magazine*.

The exhibition of pictures has continued during the year as heretofore. They are loaned from the Library Art Club of Medford, Mass., of which the library has become a member, through the kindly interest of the Rev. Walter Scott who annually pays the membership fee of \$6. The exhibit covers a wide range of views and scenes, not only of our own land, but foreign countries that are interesting and educational.

Repairs to the paint and varnish have been made on the interior of the building that has greatly improved its attractiveness. The overhead ceiling of the general delivery room and alcoves were treated to two coats of paint and the floors to a coat of shellac and varnish.

In view of the fact that the library has become so important a factor in its educational influences in the schools and community, it certainly appears that the town can well afford to make its annual appropriation of \$1,000.

## REPORT OF TREASURER.

---

### RECEIPTS.

From cash on hand February 15,	
1913,	\$11.53
town appropriation,	1,000.00
gift of Mrs. Georgia Carpenter,	150.00

## REPORT OF THE OVERSEER OF THE POOR.

---

The overseer of the poor for the town of Pittsfield respectfully submits the following report for the year ending February 15, 1914:

### PAID FOR COUNTY POOR.

Barry Boy,	\$10.10
Blaisdell, Joseph P.,	108.00
Blanchard, William,	6.00
Call, H. C.,	16.15
Cater, Richard,	3.20
Cody, Louise,	4.00
Drew, Ellen,	44.51
Frinette, Edwidge,	2.00
Gouin Family,	1.70
May, Nancy,	34.50
Metevia, George,	109.20
Nutter, Mark,	60.00
Osier, Zeb,	151.36
Raymond, Nelson,	60.00
Reil, Jerry,	42.50
Stevens, Lila,	29.00
Miscellaneous items,	1.85

---

\$684.07

Aid furnished dependent soldiers' families, \$300.30

### PAID FOR TOWN POOR.

Carson, Charles,	\$113.24
Bishop, William F.,	21.65
Come, Lewis,	4.33

---

\$139.22

Cash on hand February 15, 1913,	\$100.37
Orders from selectmen,	1,470.00
	<hr/>
	\$1,570.37
Paid out as per bills rendered,	\$1,471.59
Cash on hand February 15, 1914,	\$98.78
Due from town of Chichester, care of William Warren,	\$70.00

## TOWN TREASURER'S REPORT.

---

FOR THE FINANCIAL YEAR ENDING FEBRUARY 15, 1914.

### RECEIPTS.

Cash on hand, February 15, 1913,	\$398.69
From state treasurer, insurance tax,	39.00
state treasurer, railroad tax,	868.66
state treasurer, savings bank tax,	4,576.57

#### PROPERTY OWNED BY TOWN.

Land on Catamount Street.  
 Land and buildings, pest house.  
 Shoe factory and land, Catamount Street.  
 310 shares Suncook Valley Railroad stock.  
 Steam roller.  
 Town history manuscript.

HERBERT B. FISCHER,  
*Town Treasurer.*

We, the undersigned auditors, have examined the books and accounts of the town treasurer for the year ending February 15, 1914, and find them correctly kept and all expenditures supported by proper vouchers.

GEORGE F. MITCHELL,  
 HERBERT M. PAIGE,  
*Auditors.*

## REPORT OF THE SUPERINTENDENT OF SCHOOLS.

---

*To the School Board and Citizens of Pittsfield:*

I herewith submit to you my fourth annual report as superintendent of schools. This is the thirteenth in the series of such reports.

The number enrolled in our schools has steadily increased during the last two years. The average membership for the year ending in June, 1912, was 338; for the year ending in June, 1913, it was 373, an increase of 35. Our present enrollment is 410; one year ago it was 380; two years ago it was 334. These figures show an increase in enrollment of over twenty per cent in two years. The result is, that several of the rooms have a larger number of pupils than should properly be placed in the immediate charge of one teacher. A school of fifty is too large.

The general attendance has been for the most part good. There have been, however, several cases of flagrant truancy. Our number of tardinesses still continues unduly large.

There has been some misunderstanding in regard to the new attendance and child labor laws. No child may leave school until he is fourteen years of age. He may leave at that age provided he has completed the work of the elementary school or the eighth grade. If he has not completed this work at fourteen he must remain in school until he does complete it or until he becomes sixteen. At this age he is free to leave.

The child labor law is only indirectly related to the school attendance law. No child under fourteen may be lawfully employed in certain specified industries, and no child between the ages of fourteen and sixteen may be so employed unless he presents an employment certificate issued by the

local superintendent. No certificates are issued to children under fourteen. At the age of fourteen a child will be granted an employment certificate if he presents a certified copy of his birth certificate, a physician's certificate, and if his school attendance during the year previous has been satisfactory. The employment certificate then issued does not give the child the right to leave school unless he has completed the grammar school work. He may work outside of school hours, but he must be in school during the time the school is in session. The responsibility of his school attendance does not rest upon his employer, but upon the parent and the child himself.

At the urgent request of the parents concerned the Mountain school was opened last spring. At the same time the Jenness Pond school was closed and the pupils transported to the Mountain school. This arrangement did not prove satisfactory and the Jenness Pond school was reopened in September. The reopening of the rural schools has resulted in the elimination of nearly all of the transportation. At the present time there is but one case, a single child is brought from Tilton Hill to the village.

No change has been made in the teachers in the grades except in the principalship of the Memorial building. Mr. Paul G. Ordway resigned in June to accept a similar position in Connecticut. Miss Katharine E. Leighton, who had held this position for several years previous to last year, was elected to the position.

All the teachers in the rural schools resigned in June. A good opportunity presenting itself the board decided to try the experiment of putting a trained teacher in the South Pittsfield school. The result has been gratifying. Mrs. Lettie T. Cole, a graduate of Lowell Normal school has filled the position most acceptably. During the fall term we had a membership here of over twenty. I recommend that the policy be adopted of securing as well-trained teachers as possible for all our rural schools.

I have repeatedly called attention to the advisability of introducing manual work in the grades. I am happy to

report that we have made a beginning, small though it may be. As but \$50 was voted by the school board for this purpose we cannot, as yet, show any large results. The old school-room in the town hall has been cleaned up and turned into a workshop, and the boys in grades 6, 7 and 8 are now having one lesson a week in woodwork. A small supply of tools was purchased and other tools were brought from home by some of the boys. The first work was the construction of benches which the boys did in a very creditable manner. They are at the present time at work on bookcases, which are to be put into the rural schools, and on individual book racks. This work is under the direction of Miss Leighton, the regular teacher of the eighth grade.

The girls at the Memorial building are having one lesson a week in sewing under the direction of Mrs. Davis, the regular teacher of the sixth grade. Something has also been done in this line by Mrs. Clark with girls in the fifth grade. Great interest has been shown by the children in this work, but I am certain that the other work of the schools has not been neglected.

We are, of course, greatly handicapped in being obliged to turn this special work over to the regular teachers. It ought to be in the hands of a specially trained teacher and I urgently recommend that some provision be made for doing this. I would suggest the possibility of securing a teacher qualified to have charge of this special work, who might also supervise the work in drawing, and perhaps do some special work in the high school. Drawing is a subject we have too much neglected. We have given more attention to it this last year, but it should be put on a more satisfactory basis. Some provision should be made for intelligent direction of this work as is done with music.

Mr. Arthur S. Rollins resigned as principal of the high school in June to accept a more lucrative position in Massachusetts. Mr. Edward S. Watson was chosen to fill the vacancy. Mr. Watson's experience and success in teaching are well known to Pittsfield people. The enrollment in the high school is about seventy, practically the same as

last year. The attendance during the year has been generally good. The spirit of the school is much improved. Mr. Watson has been untiring in his efforts which are certain to result in a better school.

I wish to repeat and re-emphasize what I said last year in my report in regard to the need of the high school pupil taking his school work more seriously and assuming a greater responsibility. "Success on the part of a high school pupil, no matter how efficient the teaching, demands work and much of it. The pupil who expects to succeed without work must necessarily find himself mistaken. The chief business of the high school pupil ought to be attention to school work. Social and other activities should take a secondary place. He should make the most of his time in the schoolroom and have a definite time for outside study. Parents may assist the school by coöperating in this particular."

A course in chemistry has been introduced. This was made possible by the action of the academy trustees in fitting up an excellent laboratory at a cost of over two hundred dollars. We plan to offer physics and chemistry on alternate years.

Fifteen pupils were graduated in June. Five of these graduates entered college in September, two entered a normal school, and two other secondary schools. It is significant that of the five who entered college, but one was a Pittsfield pupil, the other four being pupils from neighboring towns who attended our high school.

I wish to refer again to my report of last year. I took occasion at that time to call attention to the large number who drop out of the high school during the course. I tried to make it clear that there was no difficulty in getting pupils from the grammar school to the high school, but that the difficulty came in holding them through the course. I attempted to give some reasons for this. As was pointed out our school is primarily concerned with fitting a few for college. It ought to be more serviceable to this community. I believe it could be made so if we were to have,

in addition to a strong college preparatory course, an equally strong commercial course, agricultural course, and domestic arts course. I hope the time is near at hand when we may see our way clear to make some move in this direction.

The school board and special committee appointed at the school meeting for the repairs under consideration at the Brick school finally decided that the conditions demanded a thorough overhauling. A sub-committee was appointed consisting of Henry E. Drake, Dr. B. W. Carr, and Charles E. Hartwell. The general oversight of the work was given to Henry E. Drake. The cellar was dug out, the walls and floor cemented, cement stairs leading into the basement constructed, a furnace installed, urinals and closets of a modern type put in, a new chimney built, and the entrance to the building rearranged and reconstructed. The repairs on the building which were originally contemplated cost about \$675. It was found necessary to do additional work to the amount of about \$100. With the removal of the old shed and closets this building will be in a clean, sanitary condition. Some trouble has been experienced this winter in heating the building. This has been due largely to inexperience and to the extreme weather. The furnace is wholly adequate to heat the room satisfactorily except on an extremely cold and windy day. The room is exposed on all sides and no furnace can heat it when extreme cold is accompanied by high wind. Outside windows would, I believe, in part remedy this trouble.

It will be necessary in the near future to overhaul the heating system at the Grammar building. The wood burning furnaces now in use were installed at the time the building was constructed and are fast reaching the end of their usefulness. We are now using about sixty-five cords of wood yearly to heat this building. It would certainly be economy to put in a steam heating plant and use coal as fuel. The building would be more satisfactorily heated at less cost for fuel.

The following comparison of expenditures should be of interest.

	1912-13	1913-14
Total expenditures,	\$10,493.09	\$10,778.91
Teachers,	5,914.50	6,541.66
Transportation,	483.60	166.80
Repairs,	276.48	785.53

The items not mentioned run practically the same for the two years.

It will be seen that our schools have cost us nearly \$300 more this year than last in spite of the fact that last year's expenditures included a note of \$500, a charge which we did not have this year. However, our increase in expenditure for repairs caused by the extraordinary outlay at the Brick school exactly balances the payment of the note. Our teachers have cost us over \$600 more this year than last. This is due to increase in salaries and to the fact that one more school has been open. Cost of transportation has been reduced \$300.

I estimate that it will cost, approximately, \$10,575 to maintain the schools this next year, provided we continue on the same basis as at present. We may expect to receive from the state, from tuitions, and from the dog tax about \$2,375. This would leave a balance to be raised by taxation of \$8,200. This last year \$8,645 was raised by taxation.

Mrs. Elizabeth Pillsbury of Boston, who was the donor of the bas-relief of the "Aurora" placed in the eighth grade room at the Memorial building has again shown her interest in our schools by presenting in memory of Mrs. Hattie Tuttle Folsom, a copy of Alma-Tadema's "Reading from Homer" to be hung in the Memorial building. This is an excellent copy of a beautiful picture, and adds greatly to the attractiveness of the sixth grade room. The gift is much appreciated.

Again, I wish to thank the school board, the parents and citizens, the teachers, and the children for the help which they have given me.

Respectfully submitted,

CHANNING T. SANBORN,  
*Superintendent of Schools.*

## ROLL OF HONOR.
